

Financing your solar investment

***Financing,
specifically
tailored for
residential solar
systems***

Getting solar now doesn't mean tens of thousands of dollars out of pocket! Depending on your system and tax situation, your actual monthly cost for solar power could be less than your current electricity bill.

***Clean Power
Finance works
with over 50
lenders and
institutions to get
you the best deal***

Our partner, Clean Power Finance, arranges financing tailored specifically to your solar investment. By working with a variety of financing sources such as banks and brokers, Clean Power Finance can find loans with low rates and low fees. This frees you from being tied to one lender and Clean Power Finance handles all of the work.

Clean Power Finance finances solar and renewable energy and knows what it takes to help us get the job done.

***15-year, 30-year,
fixed-rate or
adjustable rate
options!***

Clean Power Finance offers choices to meet your needs. Options for your solar power system include both fixed-rate and adjustable-rate financing. Your solar power system is designed to last 25 years or more, and Clean Power Finance can offer financing options that match your needs, whether it's short-term financing or a long-term monthly payment.

***Let Clean Power
Finance do the
work for you!***

Clean Power Finance will take care of all of the arrangements for you. It's easy to get started.

Your solar energy system provides peace of mind for years, as it protects you in the event of high increases in cost of electricity and increases the value of your home. You can do something that helps protect the environment and also makes good financial sense.
